Design

Wonderful illustrations by popular illustrators and picture book writers are gathered together!

These designs can be used for various winter events such as Christmas.

These sticker-type stamps are also convenient to use.

The fairytale-like stickers that come with these stamps can be used for decoration or as envelope seals.

This is Japan's first "hot stamp." "Hot stamp" technology uses high pressure and heat to instantly print foil such as metal and vinyl, resulting in gorgeous stamp sheets with glittering gold color.

Stamps are packaged in a cute, special case.

You can write a message on the case to make a wonderful gift.
